

# Radiologist – Diagnostic

The Department of Medical Imaging at Ridge Meadows Hospital is looking for two radiologists to join our vibrant and growing community practice. Maple Ridge is one of the fastest growing communities in British Columbia, boasting beautiful natural surroundings with a variety of outdoor activities, a diverse population and excellent access to downtown Vancouver. Ridge Meadows Hospital is part of the Fraser Health Authority, consisting of 157 acute care and 148 residential care beds.

Daily duties include radiography, fluoroscopy, general ultrasound, diagnostic breast imaging, musculoskeletal ultrasound, computed tomography and a variety of image-guided procedures. Equipment currently consists of dedicated and mobile DR radiography units, a Toshiba fixed-fluoroscopy C-arm unit, a GE portable ultrasound unit, four GE fully equipped clinical ultrasound units, and a Toshiba 64-slice CT scanner. The CT unit is scheduled for upgrade within the year, and MRI installation is expected to be complete in Fall 2019.

The group emphasizes evidenced-based practice, quality, strong communication, a collegial work environment, and scheduling flexibility.

The successful candidates will be comfortable interpreting general radiography and ultrasound, breast imaging, computed tomography and magnetic resonance imaging. Eligibility for licensure by the Royal College of Physicians and Surgeons of Canada and College of Physicians and Surgeons of British Columbia is required. Fellowship in an area of interest, particularly body or neuroimaging would be an asset.

Time required: Negotiable, 0.5-1.0 FTE for each position. Call responsibilities are split amongst the group

Start dates: September 2018 and June 2019, negotiable.

Application deadline: June 28, 2018

Please submit a cover letter, detailed curriculum vitae, and reference letters to [physicianrecruitment@fraserhealth.ca](mailto:physicianrecruitment@fraserhealth.ca).
